

Single Plate Contact Toaster

The Pro-Series contact toasters are equipped with a host of features that improve performance, functionality and ease of cleaning.

Used in quick service restaurants around the globe, these are the true professionals' choice.

FEATURES & BENEFITS

- Single piece stainless steel plate and protective upstand
- Single top plate (350 x 350mm) and one large bottom plate (400 x 360mm)
- Excellent heat distribution across entire cooking surface
- Smooth internal corners for easy cleaning
- Large removable grease tray
- Easily removable protective heat shields for increased operational safety – dishwasher safe
- Simple to use manually adjustable thermostat and temperature control
- The top-plate is assisted by gas struts to enable effortless and safe lifting operation and ensures gentle pressure for optimal toasting
- Design of lifting mechanism ensures the plate will not fall down and cause burns to operators
- Drip-proof ventilation grills on rear and side of unit
- Cut proof, high temperature resistant blue polyurethane supplied cord
